

The WAVE Plus

Instant Notification System for Schools and Colleges

“Duress alarm has been activated in the School of Engineering!”

Schools strive to provide a safe environment for students and teachers. In an emergency, when seconds count, the WAVE Plus instantly transmits a detailed message over the radios carried by law enforcement. An alarm message can also be sent to staff by email or text message. There is no faster way to notify officers and staff of an emergency.

- *Instantly transmits alarms by radio, email and/or text message.*
- *Can be configured to transmit over up to four radio networks.*
- *Utilizes wireless technology which is easy to deploy and modify as your needs change.*
- *Virtual buttons can be added to computers within your LAN.*
- *Menu driven touchscreen with user-friendly interface.*
- *Can be integrated with other systems such as PA, access control, camera and fire systems to provide a comprehensive security solution.*
- *Location module available.*
- *All wireless sensors in the WAVE Plus system are fully supervised.*

Having an emergency notification system that alerts local law enforcement of an incident without delay is crucial. Alarm messages transmitted over the radios carried by law enforcement is simply the fastest and most efficient way to notify officers of an emergency.

The U.S. Department of Homeland Security advises that in an active shooter incident, “Typically, the immediate deployment of law enforcement is required to stop the shooting and mitigate harm to victims”.¹
